

## N8State Windows App Installation Instructions

Click the Download button and you will see the window asking to open or save the Winapp install file. Choose to save it to your system and click "OK". Remember where you saved it.

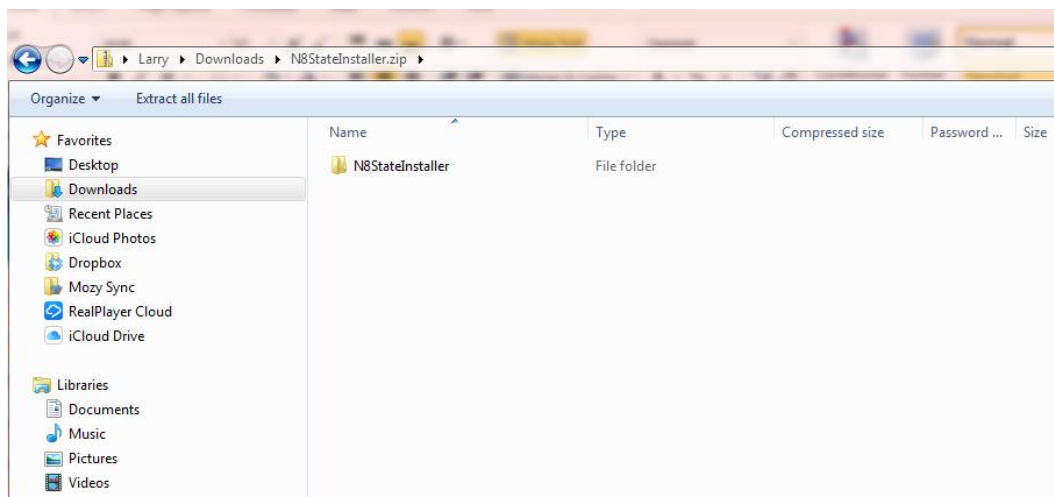

The Downloads folder is a good place to save it. Click "Save."

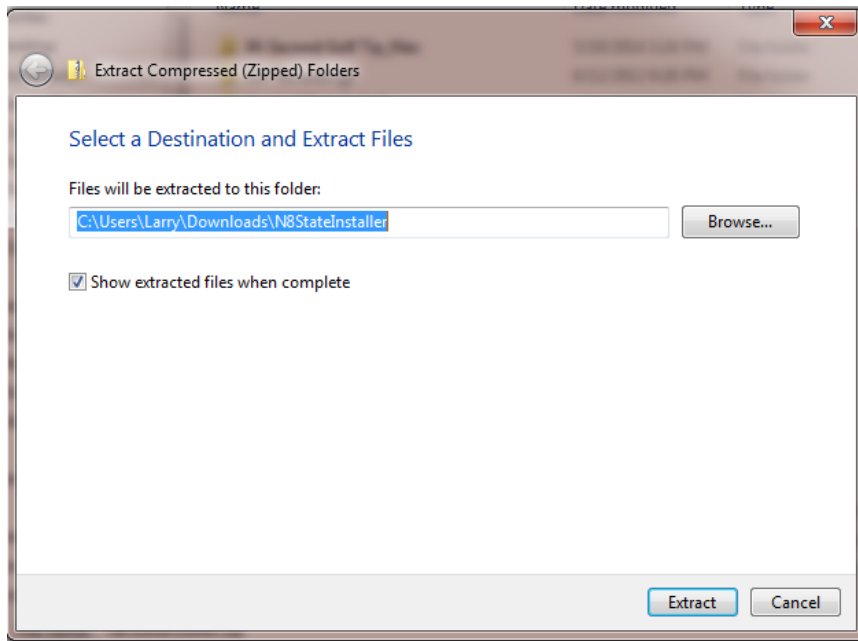

After downloading and saving the install file to your system, you will need to unzip it.

 mplayerc_20081210.zip	9/12/2011 9:32 AM	Compressed (zipp...	2,031 KB
 N8StateInstaller.zip	1/27/2015 1:03 PM	Compressed (zipp...	2,381 KB
 noname	12/26/2014 8:42 AM	File	2 KB

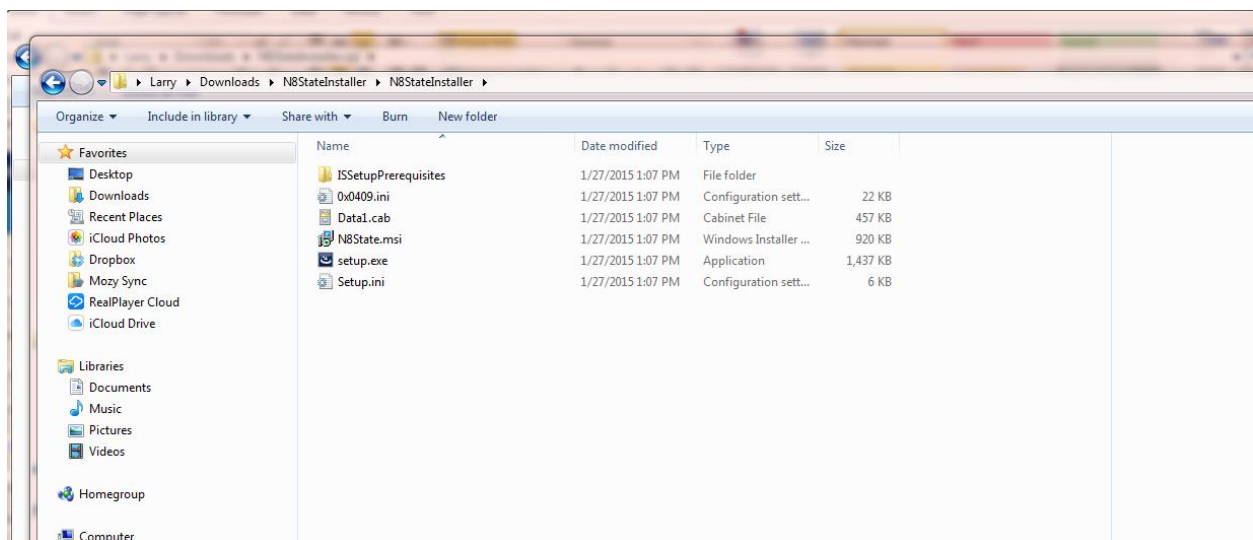

Using Windows Explorer navigate to the Installer zip file and in the tool bar above choose “Extract all files.”

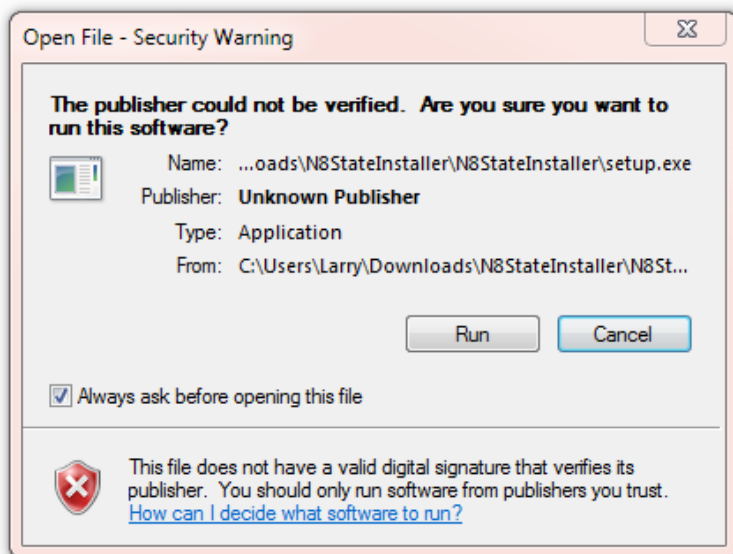

Another window opens to unpack the files. Click “Extract.”.

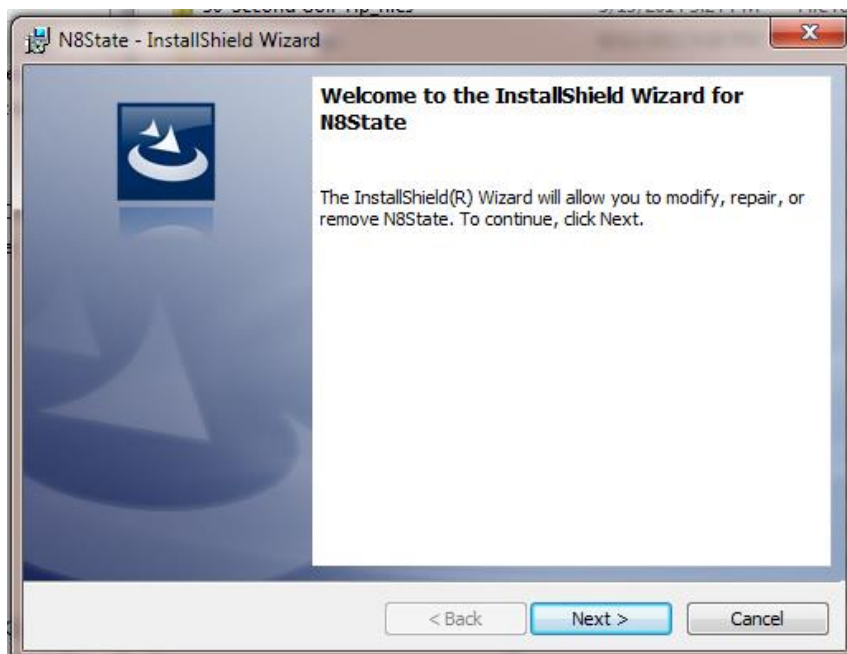

Another Windows Explorer window will open where you can double click on the N8StateInstaller folder. You will see 6 files. Double click on the setup.exe file to install the N8State Windows App.

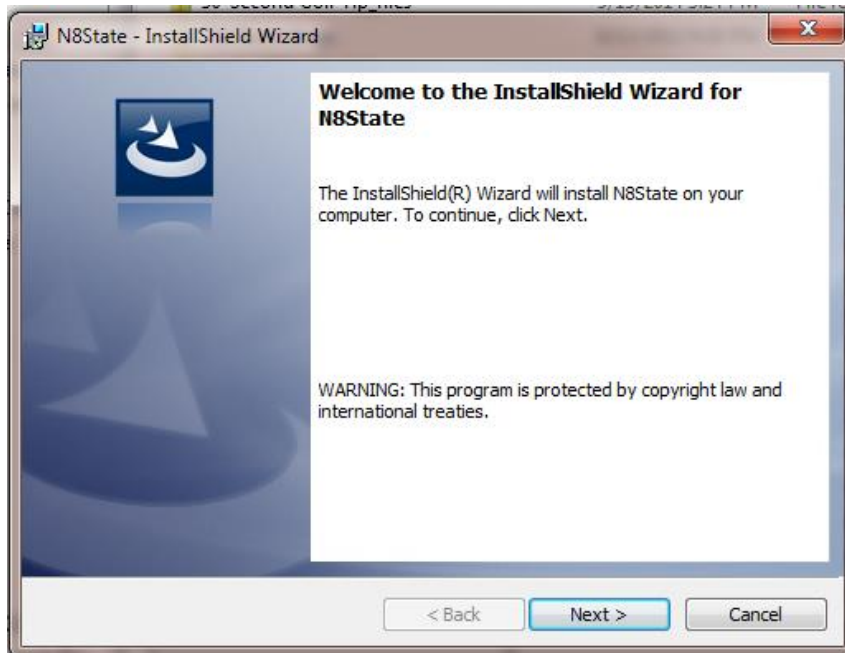

Your system might ask you to approve of this installation, just click "Run" and continue the installation.

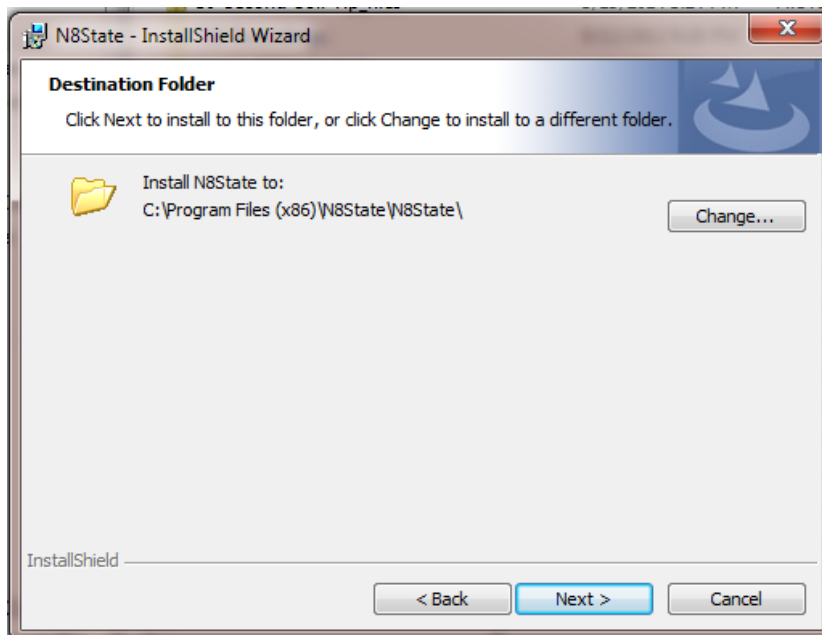

When the InstallShield Wizard starts, click "Next"

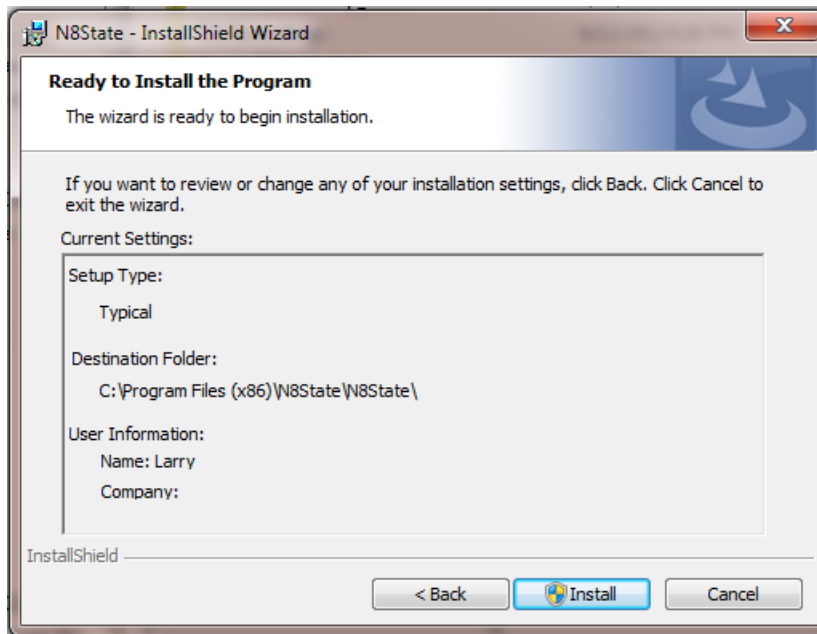

Click "Next" again.

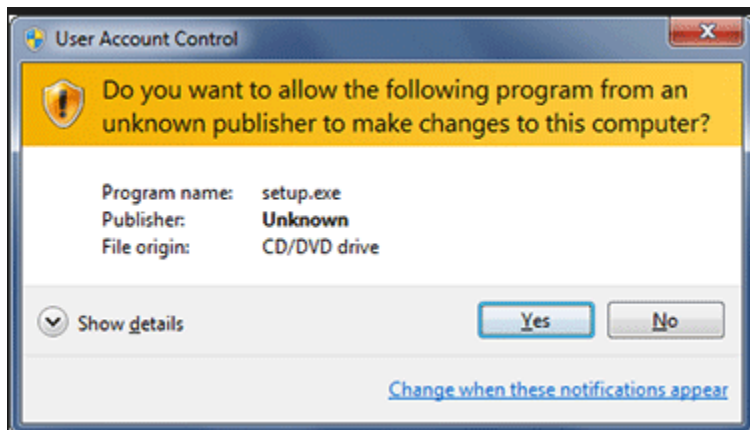

Leave the default installation folder as is and click "Next"

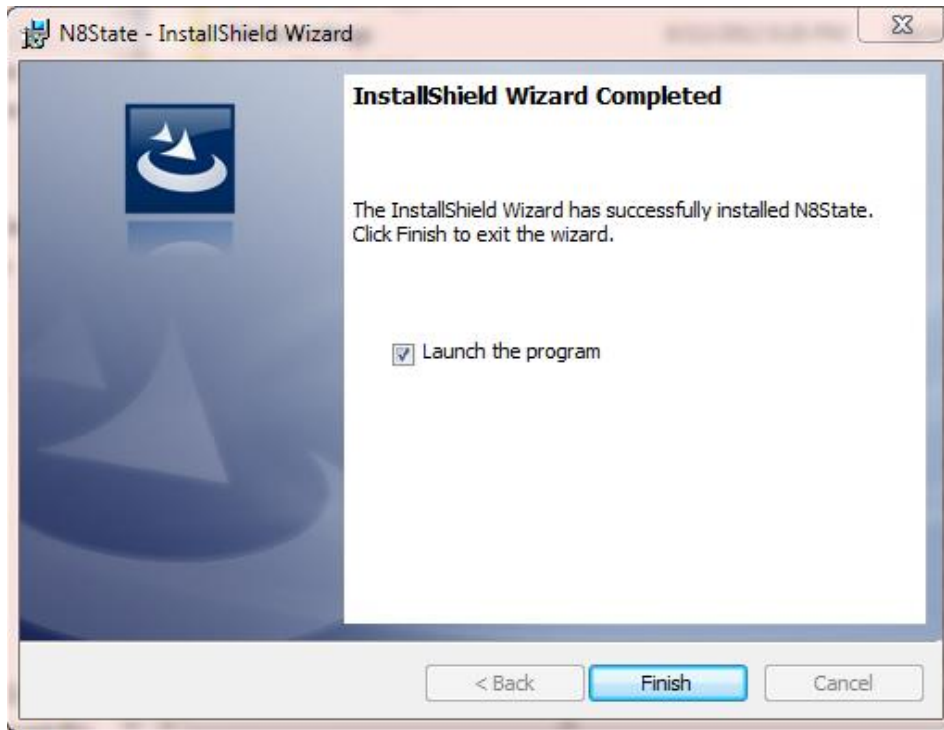

Click "Install" to perform the installation.

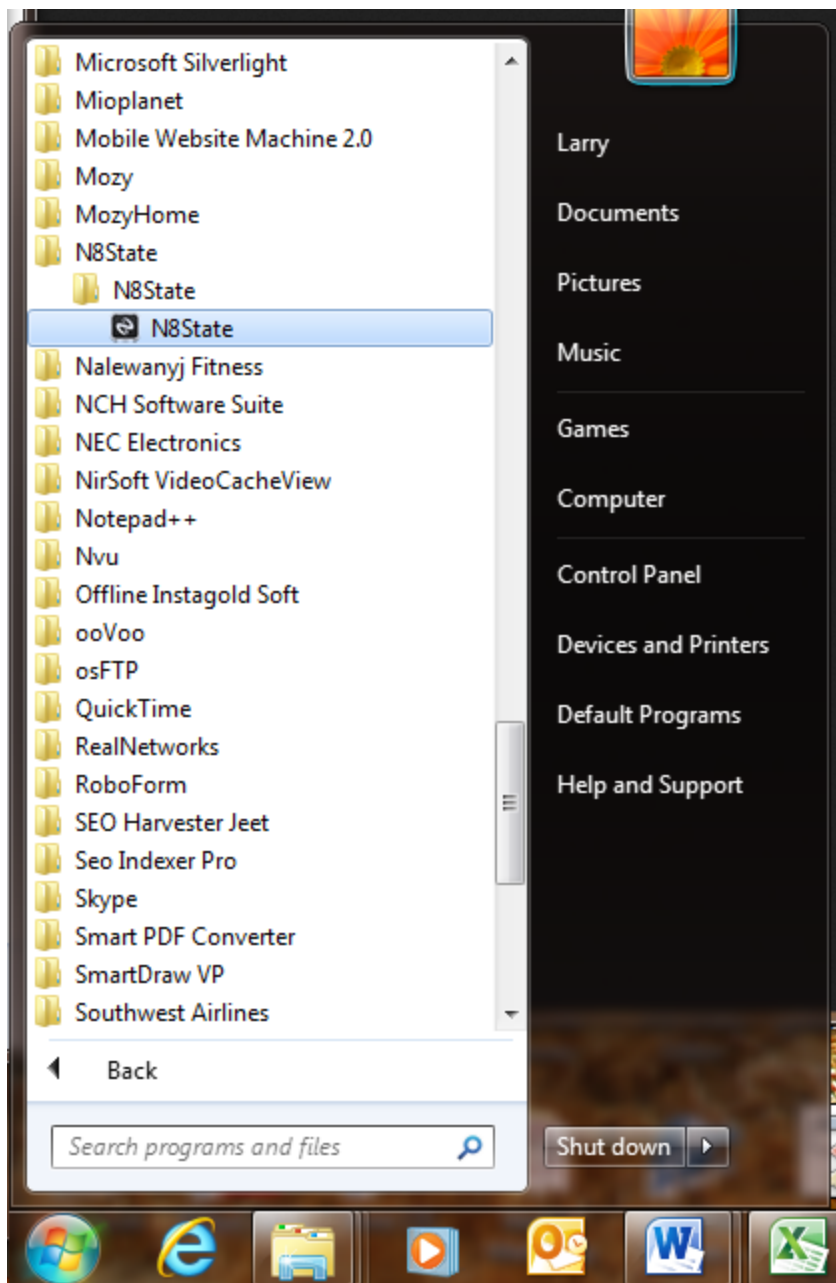

Your computer will probably ask you if you wish allow this program to make changes to your computer, click "Yes"

Click "Finish"

Now you have completed the installation of the N8State Windows App, just click your Start Icon and All Programs to find the N8State Program. Click on it to run it.

You will see the image on your screen, be sure to click Protect to activate it and begin protecting your body.

### ***Start with Windows:***

Now be sure to “Click” on the “Start with Windows” option to keep you protected. With this option clicked, N8State will start automatically whenever you restart or reboot your computer. See the image below with a focus on this option in the lower left corner of the image.

Now you are finished installing N8State and you will be protected from the radiation from your computer.

Thank you for installing N8State.
